The price was calculated from 18 February 2019 to 11 March 2019, at Baht 0.37 per share. In this instance, it was an offering of newly issued ordinary shares via Private Placement and the Meeting clearly identifies the offering price according to the Capital Market Supervisory Board No. Tor Jor. 72/2558 Re: Approval for the Listed Companies to Offer Newly Issued Shares to Investors in Private Placement. Hence, This Company needed the approval of the votes of not less than three-fourths of the total number of votes of shareholders who presented at the meeting, excluding the shareholders who had interest in the meeting and an approval for the issuance and offering of newly issued ordinary shares to Private Placement from the SEC according to the aforesaid Notification. The Company shall issue and allot ordinary shares via Private Placement to two investors as follows:

- (1) ZICO Trust(s) Ltd. As Trustee of Asia Alpha Equity Fund 3 (AAEF3) with not exceeding 1,400,000,000 shares, at a par value of Baht 0.10, or representing 14.53% of the paid-up capital (before exercise conversion of warrant TRITN-W4). Ltd. focusing on investment in construction and energy sector in South East Asia Region and specifically investing in equity without controlling power in the investees (listed companies) and;
- (2) The Brooker Group Public Company Limited (Brook) with not exceeding 200,000,000 shares, at a par value of Baht 0.10, or representing 2.08% of the paid-up capital (before exercise of warrant TRITN-W4). The offering price is Baht 0.35 per share, totaling not exceeding Baht 70,000,000. The Brooker Group Public Company Limited is a listed company in the Market Alternative Investment (MAI), providing service of investment banking and supporting mobilization capital, and has great alliances with other business industries which possibly benefits the Company in the foreseeable future.

In addition, the two investors as aforementioned were not related to the Company and were not connected persons of the Company pursuant to the Notification of Connected Transaction and did not have a related person holding the Company’s shares. This would cause the Tender Offer to be included in the Tender Offer, that was, there was no other person who has a relationship or concert party or did not have a person under Section 258 of the Company Securities and Exchange Act BE 2535 and Amendments, or no person holding shares (Nominee). Therefore, the two investors were not obliged to do the Tender Offer for the entire securities of the Company since it still owned

the Company's shares not up to 25% of the total voting rights of the Company. In accordance with the announcement of the Capital Market Supervisory Board No. 12/2554, which was about "Criteria, Conditions and Procedures for the Acquisition of Securities for Business Takeovers. After the offering of newly issued shares to private placement, the two investors shall hold not exceeding 1,600,000,000 shares of the Company, representing 16.61% of the total paid-up capital (before the exercise of conversion of warrants TRITN-W4).

In addition, if the two investors were allotted with ordinary shares of the Company which the offering price was lower than 90% of market price of Company's shares before the first date of share offering and the date that the SET accepted ordinary shares for capital increase as registered capital, the Company was responsible for prohibiting the two investors from selling all shares within 1 year from the date such ordinary shares was in trading period in the SET. After 6 months of trading in the SET, the two investors was then able to gradually sell 25% of the total shares under silent period according to the Notification of the Stock Exchange of Thailand Re: Rules, Conditions and Procedures Governing the Listing of Ordinary or Preferred Shares Issued for Capital Increase B.E. 2558 (2015) dated 11 May 2015 (and other additional amendments). However, for both shareholders and/or the Company to have confidence in the two investors who bring long-term strength and growth to the Company's business, the two investors agreed to comply with the silent period immediately without considering whether the share offering was subject to share offering at low prices or not.

For the issuance and offering the newly issued shares, the Board of Directors had proposed to the Shareholders' Meeting to consider appointing the Company's authorized directors, Executive Board or Chairman of the Executive Board or Chief Executive Officer or a person authorized by the Company's authorized director or Executive Board in order to set guidelines, terms & conditions and other details necessary and related to the issuing of new shares and its allocation in line with the relevant laws which shall include but not limited to the Offering date, etc.

However, if the selling price of the ordinary share allotment to private placement was discounted more than 10% from the market price which was calculated from using the weighted average price of the share up to 15 business days consecutively before the Offering date, the Company shall make adjustment to warrant's rights to buy the company's shares no. 3 (TRITN-W3) per the rights' entitlement and adjustment to warrant's rights to issue and offer to directors, management and employees (TRITN-WA) per the rights' entitlement.

Furthermore, the issuance and offering of ordinary shares to AAEF3 and Brook had been approved before by the Extraordinary General Meeting of shareholders' meeting no. 1/2019 on 6 November 2018. However, due to the inexact understanding, the Company was unable to issue ordinary shares to AAEF3 and Brook within 3-month period according to the Notification of the Capital Market Supervisory Board No. TorChor. 72/2558 Re: Approval for the Listed Companies to Issue the Newly-issued Shares to the Specific Investors (Codified) B.E. 2558(2015). Hence, this agenda was to be proposed to the shareholders for re-approval in order to comply with the legal procedures only. The reasons, necessity and objectives of capital increase along with money utilization plan still remained the same as approved by the Extraordinary General Meeting of shareholders' meeting no. 1/2018 on 6 November 2018.

Additional explanation regarding the purpose and plan for use of capital increase in the amount of 560,000,000 baht

According to the resolution of the Board of Directors' meeting no. 2/2020 on February 27, 2020; resolution to consider and approve additional purpose and plan for use of capital increase in the amount of 560,000,000 baht

In accordance with the Annual General Meeting of 2019 on April 30, 2019 which approved a resolution to the increase of registered capital of the newly-issued shares to specific persons (Private Placement) which are Zico Trust(s) Ltd. As Trustee of Asia Alpha Equity Fund 3 (AAEF3) in the number of 1.4 million baht and The Brooker Group Public Company Limited in the number of 200,000 shares and total number of 1.6 million baht at a par value of Baht 0.10 and the offering price of Baht 0.35 per share, equal to the total number of Baht 560 million

As the purpose and plan of use of capital increase, the Company desired to use the capital increase to pledge with the commercial bank for issuance of letter of guarantee to be used as collateral with the project owner when the Company undertakes construction work. However, due to the severe economic conditions and the spread of epidemics, causing many businesses to face problems. The construction project which plan to undertake at the end of the year 2019 has internal management problems of the project's owners. Therefore, the Company need to reconsider the purpose and plan for use of capital increase again in order to prevent the capital increase from losing the opportunity to be utilized and created return for the Company and shareholders. Therefore, the Company desired to add the purpose and plan as follows:

(a.) Purpose and Plan of Use of Proceeds from Capital Increase before change

No.	Purpose and Plan of Use	Amount (Million Baht)	Duration of use
1	To be used as guarantee with the bank for the projects under preparation as follows: <ul style="list-style-type: none">▪ Project of tank farm construction in Myanmar at an estimated price of Baht 1,914 million. The project's duration is 24 months and expected to begin in August 2019.	500 144	About July 2019

T R I T O N

	<ul style="list-style-type: none"> ▪ Project of liquefied natural gas (LNG) storage tank construction in Rayong Province Phase 1 at an estimated price of Baht 9,000 million. The project's duration is 36 months and expected to begin in November 2019. 	405	About October 2019
2	To be used as reserve working capital for both project in no.1	60	While waiting to receive advance payment from the project owner and/or at the beginning.
	Total	560	

Remark: Source of the methodology for calculating collateral value to be pledged with the bank in the amount of Baht 549 million

- Advance payment guarantee approximately 10-20% of the total project value (applying when signing contract and receiving advance payment until the end of project)
- Contract bond approximately 5% of the total project value (applying when signing contract until the end of project)
- Performance bond approximately 5% of the total project value (applying when completing project, depending on conditions of guarantee period)

Additional explanation regarding the capital increase according to the objective of capital increase in the amount of Baht 500 million

The Company is only a contractor to operate the project. For the amount of Baht 500 million received from capital increase, the Company shall use the money to pledge with the bank in order for the bank to issue a guarantee only. The Company does not use the money from capital increase in the amount of Baht 500 million for investing in construction project anyway because the money that the Company uses to operate the project is from advance payment withdrawn from the project owner after the Company pledges the guarantee. The first payment the Company shall receive is 20% of the total project value, depending on each contract agreement; and secondly, from installment payment that the Company has completed. These two sources of monies combined shall be used to operate project until completion. Thus, the Company shall have sufficient amount of revolving fund to operate project until the project completion. The amount of money that the Company has to pledge with the bank for oil storage depot construction project (Myanmar) in July 2019 is Baht 144 million, and for natural gas depot construction project (Rayong province) Phase 1 in October 2019 is Baht 405 million. For both projects combined, the Company needs Baht 549 million or representing 30% of the total guarantee value. Regarding the amount that the Company needs, the Company will use the money obtained from this capital increase of Baht 500 million to pledge with the bank and the remaining Baht 49

TRITON

million will use some amount of money to pledge will come from the advance payment the Company receives from oil storage depot construction project (Myanmar) in the amount of Baht 382 million or representing 20% of the total project value. Consequently, the Company is able to pledge with the bank in full amount. Even though the Company takes the advance payment received from oil storage depot construction project (Myanmar) to pledge with the bank, resulting in the remaining balance of the advance payment to be Baht 333 million, the Company shall receive advance payment from natural gas depot construction project (Rayong province) Phase 1 to make up. As a result, both projects' operation will have sufficient revolving capital to continue up until their project completion.

Additional explanation regarding the capital increase according to the objective of capital increase in the amount of Baht 60 million

The Company reserves Baht 60 million as revolving fund for operating oil storage depot construction project (Myanmar) and natural gas depot construction project (Rayong province) Phase 1. The background of the projected amount is from project that the Company is currently operating which requires construction material procurement and machine repairs before entering construction, including reserve as employment wage for worker to assess the site before commencing the construction work. The Company projects the amount of Baht 30 million per month for these expenses.

Therefore, the Company reserves the amount for two months. When the Company receives its first advance payment from the project owner, the Company return the amount for other cases of other emergency, for example, the Company receive delayed payment so the Company must make advance payment to subcontractor or partner first which is considered as an urgent case; or in case that the machine breaks down during the operation which requires repair. Such cases are normal in construction business operation.

(b) Reason to Change Purpose and Plan of Use of Proceeds from Capital Increase

Currently, the project owner has postponed to invest in both projects due to internal organization problem and Environmental Impact Assessment Report (EIA) therefore, both projects shall be suspended. The Company already received all amount of capital increase in the number of 560 million baht since July 2019 until now (6 months). It's likely that both projects still not be able to work soon so capital increase which the Company received shall be usable for the Company and shareholders,

According to the usable of capital increase, it has negative effect to the Company because of legal issues regarding the use of capital increase which the Company shall use in accordance with the purpose and plan for use of capital increase that only approved by Shareholders' Meeting. However, the Company still have other types of business plans that can provide good and reasonable returns which on process of feasibility study, study of return on investment and also study of operation which can replace both projects as mentioned. Therefore, the Company desired to add the purpose and plan for use of capital increase to support the Company's business plan

TRITON

(c.) Purpose and Plan of use of proceeds from capital increase after change

In spite of the project postponement, board of director thoroughly considered the guideline for managing capital increase to maximize benefits for the company, shareholders, business plan in the present and future for more effective business operation. Therefore, the Company intention is to change the Purpose and Plan of Use of Proceeds from Capital Increase as follows:

No.	Purpose and Plan of Use	Amount (Million Baht)
1	To be used to support as budget for the project investment expansion in the company	560
2	To be use as a working capital in the project and as a pledge with the commercial bank for issuance of letter of guarantee	

(d.) The Opinion from Board of Director about the Change of Purpose and Plan of Use of Proceeds from Capital Increase

The board of director has considered the guidelines for changing Purpose and Plan of Use of Proceed from Capital Increase that the Purpose and Plan of Use of Proceed from Capital Increase as approved by the shareholders' meeting is current risk of usable to use capital increase which because the Purpose and Plan of Use of Proceed from Capital Increase is limited. According to the current situation, the necessity of Use of Proceed from Capital Increase has changed from the date that the Company has requested approval from the shareholders' meeting. Due to external factors that the Company could not control,

Therefore, the best way to prevent the loss of capital increase in value adding and to maximize benefit to the Company and shareholder is to change the purpose and plan of use of proceed from capital increase so that the Company could use capital increase in other purpose as needed according to short and long terms business plan.
